Lori, here is the email from NMFS. I am also attaching some background on the development of the HEA values proposed by NMFS.

Eric

Subject: HEA habitat values for ESA consultation

Jim, Bob, Elizabeth, Tom,

Here is the table of ESA habitat values for LWG to use in the FS. These values will give a good estimate of mitigation costs. A couple of changes made since our last meeting have been incorporated. These are the values we will use (barring any new information) for our consultation on the ROD. Any individual circumstances of particular

projects that may change these values slightly will be considered in the consultations for individual projects. The values currently in the table are not negotiable, however if LWG would still like to meet one more time to discuss any other issues the group may have, NMFS is willing to attend the meeting that is currently scheduled for late July. Please let us know.

Genevieve
